

Welcome to XPDRAINAGE

Getting started with xpdrainage

If this is your first time opening xpdrainage, you will be presented with a welcome screen, which will act as a central starting point. From here you can choose to Start a new file, Open an existing file, or choose any of the help links. These can lead you to:

- [xpdrainage Tutorial - USA](#)
- [xpdrainage Tutorial - Metric](#)
- [Our recent Webinars and Videos](#)
- [xpdrainage Help Documentation](#)

You can disable or re-enable the Welcome screen at any time from the [Preferences](#) menu.
