

Getting Started with Pressure Zone Manager (PZM)

From the InfoWater Pro tab, go to **InfoWater Pro> Apps**  > **App Manager > Pressure Zone Manager**.

If your Pressure Zone Manager is grayed out, go to **Start menu>InfoWater Extended Module Configurator>check on PZM** option and allow to install PZM.

The Pressure Zone Manager will now be available from the **InfoWater Pro> Apps> App Manager** dialog box > **PZM** and click on the **Run** button, as shown below.
