

Message Log

After you send a notification, the recipients may have not received the notification until the status is Complete. "Notification In Progress" means that you have dispatched information to CityWatch, but CityWatch has not processed all of the notifications yet. You can send new notifications when the status is "Notification In Progress." Click on the **Refresh** button to check the status in CityWatch.

You must save the project or else the Message Log information will be lost when the project is closed.
