

Criticality Assessment Manager

The InfoWater Pro Criticality Assessment Manager is used to analyze the criticality of system valves and line valves. For an overview of the InfoWater Pro Criticality Asset Manager capabilities, please click [here](#).

You can access InfoWater Pro Criticality Assessment Manager from **InfoWater Pro > Apps > App Manager > Criticality Assessment Manager** and click on the **Run** button, as shown below.

The screenshot shows the 'App Manager' window with a grid of application icons. The 'Criticality Assessment Manager' icon, which features a warning symbol, is highlighted with a red circle. Below the grid, the 'Criticality Assessment Manager' section is expanded to show available commands.

Command	Description
<input checked="" type="checkbox"/> Run Assessment	Launch Criticality Assessment Manager

Ready, Build 0.02
