

Help Ribbon

The **Help Ribbon/Menu** contains links to the Online help and Support as well as the About form.

The Help options listed below can be accessed from the Help Ribbon, or via the drop down Help Menu in the top right of the application.

Help

Contents - Opens the [xpdrainage Help Documentation](#) home page.

Search text box - Press Return (or click the Search button) to open the [Search home page](#) with the results of a search for the text entered.

Search - If search text is present then this button opens the [Search home page](#) with the results of a search for the text, otherwise it opens the Search home page.

Support

Tutorial - Opens the [xpdrainage Tutorial](#) help page.

Online Support - Provides a link to our [Support portal](#) so that support tickets can be logged and viewed.

About

About - The about form for the software giving information on the software version as well as the license being used.
