

Rainfall Ribbon

The **Rainfall/Pollutants Ribbon** allows modification of Rainfall Information, including the Rainfall Library and Analysis Criteria. It also allows Pollutants to be specified.

The background Rainfall options are discussed within the sections listed below, please select one of these options for details.

(Add) Design Storms - contains buttons allowing new design rainfalls to be created:

[SCS](#)

[FEH Rainfall](#)

[FSR Rainfall](#)

[Australian Rainfall and Runoff](#)

[Desbordes Rainfall](#)

[User Defined Rainfall](#)

(Add) Know Rainfall - enables creation of rainfall records for known rainfall.

[Known Rainfall](#)

Rainfall - contains buttons to manage the rainfall library and rainfall used for analysis:

[Rainfall Manager](#)

[Analysis Criteria](#) (Analysis Criteria)

Pollutant Data

[Pollutants](#)
